Product highlights

Nickel-plated connectors
Nickel-plated connectors establish a clean contact between the cable and connector for a reliable connection.

High purity copper
This copper conductor provides high accuracy in signal transfer with minimal resistance.

Bare copper shielding
Bare copper shielding protects against signal loss.

Color-coded connectors
Color coded connections make it easy to install your cable into the correct inputs and outputs

Easy grip
This non-slip grip makes connecting your components easy and ergonomically comfortable.

Plug & Play
Plug & Play gives you the ability to install or add a new component and have it work without having to perform any complex installation procedure or technical analysis.

Molded plug
Molded plugs ensure secure connections between components and offer extended durability.

Flexible PVC Jacket
Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Rubber strain relief
Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.
